UC2020 Managed Bridge Service

High Definition Video Conferencing through our Managed Services

Bundled with our UC2020 solution packages* is our “all-you-can-meet” Managed Bridge Service.

The UC2020 suite of VC solutions from Communication Partners is an **EASY** High Definition Video Conferencing solution anywhere, anytime. A **TOTAL** solution for New Zealand enterprises, UC2020 is a modular solution, so you only pay for the functionality you need now.

As your needs grow it is **SCALABLE**, providing a future-proofed HDVC platform.

UC2020 Managed Bridge Service is our secure and private VC communications infrastructure, which provides ultra-high-speed high quality delivery of visual communications including multiparty VC’s.

**Excludes the UC2020 RoadWarrior package where Managed Bridge Services is an optional extra.*

- ❖ Simple calling and call management features integrated with contacts list
- ❖ Allows user to user; or user to group videoconferencing

KEY FEATURES

“ALL-YOU-CAN-MEET”

Videoconference whenever, wherever and **as often as you like**—it’s all bundled in our all-inclusive monthly fee.

Subscribers to our UC2020 packaged solutions have use of our Managed Bridged Service as often and whenever they like, for VC meetings involving those UC2020 subscribed endpoints.

MULTI-PARTY VIDEOCONFERENCING

Connect up to TEN full HD 1080p30 endpoints or up to FORTY 720p30 PCs/laptops. Our managed bridge service looks after the complexity of synchronising the multi-party VideoConference and keeping the quality high.

EASY TO USE

Simply login to our service and GO.

No technical knowledge required—we look after the technology, the security, the privacy and the support—all part of our Managed Service—to keep things simple for you—our customer.

MULTI-PARTY CONFERENCE

Through our “all-you-can-meet” Managed Bridge Service run your own multi-party videoconferences.

RECORDING AND STREAMING OF CALLS

Record and important conferences for either live or subsequent on-demand streaming.
